"IN THE NICK OF TIME."

#### They Stopped Him from Going on the "Busi."

Two Australian officers, whilst Self-Denial collecting, came to a lonely farmhouse, some miles distant from any other place. They were driving in a buggy, and stopped by the roadside consider whether it was worth while calling. The house was a miserable looking place, and me one could be seen about but an old man in his working clothes. There seemed to be no prospect of adding to the amount already in the book, but the officers thought it a pity to pass without call-

#### The Devil Made an Effort to Keep Him, but Failed.

The Sergeant-Major of the Wellington corps, South Africa, was one of the earliest converts in the country. His conversion came about in this

way:

The Salvation Army officers hapmened to pass the shop where ne was
working shortly after their advent to
the lown, and their appearance
roused considerable curiosity as to
who they were and what they ropresented. None of the local people
know anything about the Army, but
one or two of the Englishmen in the
shop had seen it in England, and gave
their mates some more or less trushial
accounts of its proceedings. Gottschatk, our now Sergeant-Major, determined he would go and see for
himself, and that night he attended
the meeting, after fortifying himself
ugainst any cvil effects by a considerable ullowance of wine. The upshot was that at the close he found
himself at the penitent form with
four others.

The dovil, however, was determined

himself at the penitent form with four others.

The dovil, however, was determined not to let him go without an endeavor to keep such a whole-hearted servant of evil as he at that time was, and subtily suggested to his mind the following day that he had been drunk the previous night when he went to the penitent form, and that God did not have anything to do with drunken people. There being no one at hand to counsel him aright, he was carried away by this and gave up. A little while afterwards, however, he again attended a meeting, taking particular earn that he was sober on the occasion, and once more sought salvation, and definitely found it. To his very great toy he saw, when he rose from his knees, that his wife was also among the converts rejoicing around him. This was twenty-two years ago, and there has been no turning back since that for either.—South African War Cry.

#### A Wonderful Work at Johannesburg.

The following report of Salvation work among the netives of South Africa contains some facts that are both, amusing and instructive:

both amusing and instructive:

Our Central Hall on the Raud is situated close to the Compound of the Salisbury and Jubileo Gold Mines, and meetings are regularly conducted amongst the natives employed there. For instance, every Sunday night a salvation lantern service is held in the Compound itself, and the natives, most of whom belong to the Mashangan tribo, attend in large numbers.

These people had never seen a magic-lantern before, and their excitement when the pictures were thrown on the screen threatened at first to upset the meeting. Several of the natives working in the mines named have been converted, and recently eight of them were swormen as soldiers.

Have a Time to Pray.

We have never requested our Praying Leggers to set apart a universal hour, thinking we might mention a time inconvenient to many.

As is well known 19.39 p.m. is the Salvation Army's world-wide hour of prayer. We would like at this stage of the history of our League to suggest that our members remember the special topic given for the weekly prayer

at this hour, or between 7 and 8 ocieck in the evening. In addition to the regular prayer to which each one is pledged this union of thought and supplication will be of untold blessing to the individual and to the kingdom of God.

Many little notes have found their way during the peak year to the Secretary of this department—little imagnates telling of the blessings received by the readers of this column. #### No. I.—The Passion for Souls—How I Got It and How I Keep It.

HERE is no subject that causes one to feel move overwhelmed by its im-portance and selemnity than that of winning souls for Christ. How helpless all human power is un-less linked on to the divine, and gladly I acknowledged God in every effort I have put forth for the salvaat His dear feet all the glory for any bleasing I may have been made to my fellows in any part of the world.

A Memorable Night.

In answering the question as to how I have been enabled to win souls for Christ, I would say in the first place

Tobtained a love for the souls of men-nay, a passion for them--very early in my soldier career, I remember so well as if it were only yesterday, how, as a young convert, there was ont within me a great longing that other people might have the same peace of soul and joy in the service of God as I myself had; in fact, there were two things speken in the testimonygiven when I prose from the penitent form on that memorable night. when God, far Christ's sake, pardened my sins, that stand out very preminently. First, 1 thanked God for having saved mc, and wished I had been saved triore; and second, gave expres-sion to my feelings in he following words: 'Oh, that everybody else Link!". Here was

the beginning of that love for the souls of men, which, by God's blessing, has not only been minintained, but has gone on increasing, and I can say with

"The sight that charms me most Is a sinner at the cross."

A Great Love.

This love for souls was put in my heart when I first knot at the more; seat, staking forgiveness for my own sins, and obtaining it at the hands of a loving Saviour. As the days, weeks, and months went on, and I was brought into contact with men and women of God, my eres were opened to the depths from which I had been

digged, and the rock from which I had been hewn, and my love for the souls of men increased accordingly.

I had a special baptism for service. At the time, however, I scarcely under stood that it was so; in fact, the blessing I received had not really shaped itself up before me as having anything in do with a special equipment for God's work. Hitherto I had only known that I possessed a deep longing for a higher life, a sense of a great lack of power, and a conscioneness that I was not wholly on the

The special blessing I refer to tack place a few months after my conversion, and after I had been used in "Here I give my all to Thee,

Friends, and time, and carthly store, Soul and body Thine to be, Wholly Thine for evermore."

What it Means.

How little one realizes when they take up some small cross for Christ, what following the leadings of His Spirit, and obeying His command may ultimately mean. That Sunday right's obedience cost me much. All I knew and understood up to that time was, as I have already remarked, the conseiousness of a great lack, the sense of a real and deep need, the reaching out of my beart after a fuller and more complete surrender, and a longing after

fanned, until it came to be a blezing

It was not long after this that I received the call far officership; and, as a result of that blessed Sunday night, I found within me the ready response to the voice of God, and a willing obedience to the divine call.
Obstacles were many, difficulties great; there were hills to climb and frivers to wade through, but that love for the souls of men, that passion for the pulling of them out of the fire, were so strong that they carried me right past every obstacle, and landed me in the great city of London to take up my first appointment as an officer in the ranks of the Salvation

Army. How this love for souls has been maintained is a question I must answer as simply and swer 25 gran, plainly us I can,

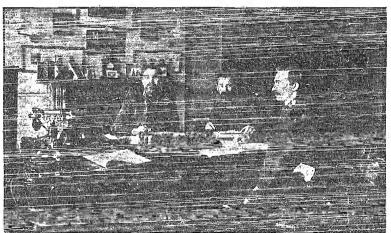

#### How to Keep Love.

I have found it most helpful, with the in-Greased wisdom God has given me, to do what I tried to de as a young convert: namely, to realize the awful condition in which men are, the terrible state in which they are living, and try to grasp, so far as my poor mind can, the terrible hell to which they are going. Then I endenvor to get a clear view of the price paid by my Redeemer for the salvation of sinners, to understand the great efforts put forth by the Holy Spirit to turn men from darkness to light, and from the power of Satan

to God, to comprehend the mervelous to God, to comprehen the mervelon-deliverance that awaits them here, and the eternal reward that will be theirs if they only follow Him. With these remizations before me, I have tried to put myself alongside my Lord and Master, and to mingle my tears with His, weeping over the Jernsalem to-day as He went over the Jerusalem

to-day as Hô, wept over the Jérusalem in years gone by: and by: thus, been prepared to lay myself at His deamest for any service that would help to turn the eyes of, men, and 'wemen towards God.

In all my efforts for the subration of men, I have, us, it were, bread His voice saying unto me, 'I, if I be lifted up from the earth, will draw all men unto Me;' and I have found that He is, as He has ever hear, the attraction for lost souls, as well as their Saviour.

it came about thus: The Chief of the Saar hild been holding a day's meetings with us. It was a hard Sun-day, so far as withle results were natioerastly in fact, no one would puramong the crowd of sinners who sat in the packed building and listened to the burning massages he delivered. At last, led by the Spirit, he turned the peaper meeting into a holiness meeting, and I was among like number who went forward for the blessing of Fall Salvation. How vividly the whole scene comes before me as I write. I remember repeating on my

purity. The struggle was a severe one. The devil made a great onslaught on me. He appealed to my pride, and attacked me on all points. What attacked me on all points. What would the people say? Was it necessary? Could I not be just as good mithout? did I not know some who had gone out to the penitent form before, and were to all appearances none the better for it? It will be the same with you also, and so forth; and yet in that sacred hour, there came the equipment for service, the power to be the man I wanted to be, the backing for that work which was to fellow. #### A Word to the Young.

One of the most impressive sights in conection with the recent councils at Toronto was when the officers present who had been converted at the age of sectore or below were asked to stand. Quite eighty per cent, did so, and it was suggested that if the age were raised to twenty nearly all present would have risen. There is no doubt such would have been the case. To us this is most encouraging, for

if pouth be the slippery path it is sometimes operanded and done is bittle doubt that youth has its peculiar temptations and beastments—it is evident enough that there are plenty who find that God's grace has been sufficient to keep them in the hour of temptation when young. #### Some Peoples of the Earth

On this page we show types of two nations. Amongst one the Blood-and-fire flag waves, and numbers of the tribe have been led to Christ—they are the Maoris, the original inhabitants of New Zealand.

Formerly the Maoris were greatly given to cannibalism. The real reason of this revelling practice was the supercriticus notion that any one who are the flesh of another became endowned till all the best qualities of that person. A chief would sometimes eat only the left eye of his enemy, that being supposed to be the seat of his soul. To drink the blood was to imbibe his courage and splitt. The practice must alice be regarded as symbolizing a man's final triumph ever his camp.

The Tibetans show us how grateful we should be that we were born in a Christian land, for they are in total darkness concerning our glorious Christ, and pray to a god by means of a wheel. The prayer wheel of Tibet is said to consist of a hollow, cylindrical ong, which revolves round a spindle, one end of which forms the handle. The cylinder is turned by means of a piece of copper attached to a string. A slight twist of the hand makes the cylinder revolve, and each revolution represents one repetition of the prayer, which is written en a scroll kept under the cylinder (sometimes it is engraved outside). The

prayer wheels are of all sizes, from that of a large barrel downwards; but those carried in the hand are generally four or six inches in height by about three inches in diameter, with a handle projecting about four inches below the bottom of the cylinder. They have praying-stones, praying-pyramida, praying-stones, praying-pyramida, praying-wheels, praying-mills, and the universal prayer, "Om mone padme hum," is never out of their mouths. These four words, among all prayers or earth, form that which is most abundantly recited, written, and printed.

#### " Work at Yourselves."

A short time ago a very gifted suthorses passed away, and a wallknown journalist who wrote a personal sketch laid great stress on the factract she "worked at herself."

This seems to be very significant phrase, and we should like a few short sketches to show our young people for whom this page specially catera how some people who have ricen to eminence and honor have worked at themselves.

Perhaps there are few more inspiring personalities in history than he mosthenes, the Athenian patriot and orator. He was but sixteen years of ago when he heard an orator speak, and realized the great power of elequence over the minds of men, and straightway set about "working of thinself." He was most unpremising raw material, for he had post health, a weak voice, an impediment in his speech, and very short breath.

His efforts to improve his natural defects of utterance seem almost incredible, and prove that an indestrions perseverance can surmount all He stammered to such a dethings. gree that he could not pronounce some letters, and he breathed he could not utter a sentence without stopping. He at length over came these obstacles by putting small peobles in his mouth and pronounding verses in that manner without interruption, also shouting and declaiming he ran up steep places, to give him better breathing powers. He went to overcome a natural timidity by atdressing the tumultous waves. thus fortifying himself against the tamults of public assemblies.

To correct a fault which he had contracted by an ill hebit of continuity ally shrugging his shoulders, he practiced standing upright in a very narrow pulpit or restreet, with a sword hanging point down so that if he shrugged himself

His application to study was no less surprising. He shut himself un in a small chamber under ground, shaving on pulpuse one half of his head and race, that he might not be tempted to drop his studies and go abroad.

end used to say that he was very sorry when any workman was at his business before him.

What was the result of all this?
"He carried the art of speaking to
the highest degree of perfection of
which it is capable."

The enomies of Amens declared that "the enoquence of Demosthenes did them more hert than all the armies and fleets of the Athenians."

OR some time a very blessed work in connection with Canadian prisons has been carried on by the Salvation Army. and at the present time

there are no fewor than forty cities in the Dominion in which the Salvation Army officers have every facility offered them for conducting Salvation meetings in the prison and engaging in personal interviews with the priconers.

The methods employed by the Army the headest employed by the Amy touch law-breakers at various points. There are the meetings, salvation and social—what is meant by social is much in the nature of a concert per-sonal interviews, Police Court remand eases, and prisoners on parole.

It was the writer's privilege recently to attend one of the social meetings at the Central Prison, Toronto. Commissioner Coombs and some members of his Staff rendered the various items

on the program.

Dr. Gilmoor, the Warden, led the little compan into a large, airy, well-lighted room, it the end of which was a crimson covered dais, a pinneforte, an organ, and a reading desk. We were in the pr son chapel

Fronting us sat 300 men, closely cropped, clad in gorb of alternate bine and brown strines, well-nourished, and apparently fa. ly happy. Anyway, the welcome florided the Salvation Army gave no evidence of restraint

Dr. Gilmour presided over the meet-Ing. After an opening hymn had been most meatony song, and prayer had been offered up and reverently listened to by the prisoners, the worthy War-

den made un excellent little speech. This is its substance: "Boys, I sometimes very often wonder what we should do if the Salvat on Army were to withdraw from us entirely. would make a great gap, would it not? (Vigorous clapping.) I invited Com-missioner Coombs and Staff to come to-night, and find that the Salvation Army always graciously accepts the invitation. (More clapping.) Sometimes in councetion with our other meetings I am obliged to run all over the city to get people to come and talk and sing to us; but I never have to do that with the Salvation Army. Their efforts are often spontaneous, and their visits are always a treat, a pleasure to us. In fact, I think we are getting to look upon the Salvation Army as a part of the Central Prison. (More clapping and laughter.) At any rate, they always have sympathy with the under dog, and we are very glad to have them here to-night." (Loud

More was said but the foregoing is sufficient to show the man-to-man, sympathetic style of the Warden's adss to the men in stripes before him.

The meeting consisted of your and instrumental masic and a couple of brief speeches. The items were exceedingly well rendered, and the pri-sons frequently called for and obtained an encore. I have never seen a more appreciative audience.

Commissioner Coombs sang a lively Salvation ditty to the tune, "My luss is a high-born lady." It went down in ripping style, and afterwards he gave a characteristic speech, and told how that when walking down the street a few days ago a well-dressed man

touched him on the arm and said. "Don't you know me? I last saw you in the Central Prison." (More laughter.) Then the man told the Commissioner how he had found Christ in the Central, and time ne was now earning good wages and trying to serve God. Another man, a lew days before, land said almost the same thing to the Commissioner in the Union Depot. When those who desired prayers on their behalf, and to serve God, were asked to stand on their feet, twentythree did so.

That is the merest outline of the proceedings, but it indicates the trend of that meeting. Salvation services are, of course, still more direct oppeals to the soul.

A few days Inter the writer was introduced to another aspect of Prison Work-personal interviewing.

The Central Prison is a pleasantlysituated and well-kept institution, and the system of iron-barred cells render orsonal interviews much more convenient than the locked-door system in vogue in some other countries.

The first prisoner we visited was a married man with three little children, who would have fared very hardly were it not for the fact that the Salvation Army renders the wife weekly assistance. He was a good tradesman, but in an evil hour had committed a forgery. He had for

eight months, however, been trying to live a Christian life in jail, and his wife had given God her heart also, He assured me that perhaps it was a good thing that no had been imprisoned, or perhaps the would never have thought about God. The man's face positively beamed as the Staff-Captain told him about the children.

Our visit was quite unexneeled, and I shall not forget the thrill I experionced as, begging allently in front ... the grated cells, I witnessed a silent figure kneeling at his chair, his head buried in his hands-at prayor.

He had given God his heart in the Solvetion meeting a chort time pre-viously. Who can tell what petition that storm-driven soul was presenting to his Maker-silent and unheard by interfal, but seen and understood by Him who sitteth among the cherubim,

The Committee appointed Capt. Widgery, of the Salvation Army, and his assistants, in charge of the distribution of the food and clothing and the hivesingation of all cases that apply for relief. Effective relief is aiready being administered.

Acting-Commissioner Richards has been visiting the Rondt for the purpose mainly of opening the new half for the Johannesburg corps, situated within a stone's throw of Commissioner Street, one of the most important thoroughfares. It is reported to be a comfortable, well lit, and splendidly ventilated building, the best in every wey which the corps has occupied up to the present. Four souls sought activation at the opening meeting, and eight more on the Sundey night.

The Salvation Army has taken over the running of the way school at the cotton mill, Lynchung, U.S.A. So satisfactory has been the result of this new departure in Salvation Army work that the president of the large cotton industry has again handed over to it the care of the school attached to the mill. The results of the vork accomplished last year were very centifying indeed. This school is exclusively for white children under work in the mill.

#### A Personal Word.

May we be permitted to utter a personal word to the thousands of readers in Canada for whom it will be our exalted privilege to record each week the wonderful works of the Lord, as manifested by the doings of the Salwation Army in thus great Dominion? The note we should like to sound would be that of humble gratitude. Wo are graveful to our beloved General for the high honor he has conferred upon us in this appointment. and for than is for our labors in anather field. But shove all we are grateful to almighty God for the work of His Holy Spirit and the ordering of His Providence. The position of Editor of the Canadian Cry. us we fully realize, is one that possesses illimitable possibilities for conferring important spiritual blessings and directing the thoughts of and women into ways of rightoousness and when he realize the vestness of the opportunities we ery, "Who is equal to these things?" and pray that God will come to our holm. Another fact that calls for gratitude confronts us, and that is the numerous ways in which the Salvation Array presents an open door to young men and women for a life of direct service to God and their fellowmen. Two organization that has been called into being in the history of manking puts within reach of the ordinary young men and women such faculties for exalted labors as the Salvation Army affords, and we should like in this our first Editorial to call upon all pur young readers who possess the mocessary gifts and graces to offer shempolves for the great service of helping our blessed Redeemer to win

the world to holiness and love

#### Comments on Current Malters.

A Curious Case.

The drink question has loomed large in the Dominion lately, and assumed a curious uspect at Mont where twenty-three drunkards have been let out of jail on the ground that the Recorders had no right to sentence drunkards to such long terms A still as from six to nine months. greater number are to be let out of jail in Quebec. Perhaps in all a hundred drunkards and vagabonds are to be given their liberty. Our opinion is that it would be much better to heep these people in prison and grant the Salvation Army the same privileges at the Montreal and Quebec jails for visiting the prisoners and conducting salvation meetings amongst them as we have in forty other cities in Canada. We direct the attention of the authorities to the article on Prison Work elsewhere

#### A Solemn Warning.

Again we have been reminded that in the midst of life we are in death. At Atlantic City, without a moment's warning, an electric train dashed from drawbridge into a river, and over equipment of the train is said to be entirely new, and at the time of writing no cause can be assigned for the calemity. We extend our sincere sympathy to the bereaved ones, and to the unsaved portion of our readers would say that these things are to be regarded in the light of warnings and calls to make our peace with God without delay.

#### Gambling Again.

We congratulate Australia on its anti-betting legislators, although we are sorry to see that it has been modified to allow hetting on race-courses. We think the Dominion would largely benefit if the facilities for gambling duced. There is no doubt that betting and gambling is a moral canker that is eating the heart out of many of the brightest and best of young Canada Here is an extract from a daily paper:

"H. H. II-, book-keeper, has added his name to the growing list of young men who have absconded. with funds belonging to their employers, leaving a record of gambling proclivities behind them. The company's manager makes the following statement: 'H-- absconded with about \$2,000 of our general accounts. He came out from England about two years ugo, and came to us well recommended. I understand that H-- lost his money betting on races. He raised it by forging press orders and Sovereign Bunk orders.' H—— is married and has a family."

Young team, beware of evil habits. Seek deliverance, if you are enclaved, from the Great Deliverer.

#### A Wise Decision.

The open bar, it is said, noist be banished. We agree. It is true that the public house in this country, so far as we have seen, is not nearly such a blatant, glaring nuisance as it other countries we wot not of. Still. there is far too much advertising of the hellish stuff even in this country, We compliment the License Commis-sioners and Inspector King, of St. Catharines, on the recent decision. The facts of the case, in brief, are these: The Inspector, while making his rounds, heard a bar-tender ask a man, against whom papers had been issued; what he was going to have. The Inspector then becaused the proprictor and put the bar-tender out of the house. The legality of his action has been disputed, but the License Commissioners have uplied his action and adopted a resolution empowering

Inspectors to summerity suspend any par-touder caught selling liquor to persons against whom promitions papers have been issued under section 195 of the act. We hope this will have a wholesome shoot on links wenders.

Nottingham's Welcome to her Distinguished Son and page Freeman.

A DAY OF PRAYER AT EXETER HALL.

There is always a special interest attached to the General's visits to Nottingham the city of which he is not only a native but an honored Freeman.

Consequently it almost goes without saying that our beloved leader was given a great reception when he recently appeared in the lace centre. Soldiers and friends turned out by the thousand in their desire to make him feel that he was not only esteemed in other lands, but also in this, Lis native town.

The General's ontry into the soldiers' meeting was the signal for one of the most affectionate outbursts, says our correspondent, I have ever witnessed.

#### Walked Up Goosegate.

Naturally the General referred, good deal to his early days when, as lad he need to walk those emests and sing old-fashioned salvation songs.

"I shall never forget walking up Georgate; with the stars smiling above me, when I knelt in that read and claimed the salvation of God.

"I remember also, about sixty-two years age, on a Sunday night, going home. It was late: I was returning from a preaching service, when in the old chapel I heard 2 song. It seemed to me to be a song of help. I went in. All the lights were out except two or three in the corner of the gallery. Here I found a handful of people with a poor backslider."

The crowds of the week-end beggar description! It seems to me that we have had Sunday night crowds at every meeting. The Empire Theatre was besieged. The clamer at the doors was tremendous. Stalls, pit, boxes, grand circle, top circle, and topmost gailery, with promenade, were packed as I have seldom seen a place packed. People erowded the stage, sat on the roof of the building, and at night the block was so great that until nine o'clock fishing was all but inquestible. found accommedation at the four meetings for nearly eleven thousand people, and I am within the mark when I say hundreds, if not thousands, were turned from the doors.

#### Day of Prayer.

The Army's great Day of Prayer attracted great crowds to the Exeter Hatl, London, on Thursday. Se enormous wer the throng at night that overflow meetings had to be reserved to. The General was in supreme com-mend throughout the day. Possile s toil, his eleven hours' almost ceasels physical strength remained practically unabated to the end.

Another Record-Breaking Campaign-Opera House Corged -Overflow Meelings-Scores at the Morcy Seat.

MAYORAL AND ALDERMANIC TRIBUTE TO THE GOOD WORK OF HE SALVATION ARMY.

From Our Own Correspondent.

St. John, New Brunswick, Oct. 29th.

The Eastern Councils, Commissioner and Mrs. Coombs in command, back broken all previous records. On behalf if the citizens of St. John, Rie Wership Mayor Sears, supported by Aldermon Bullock and Lewis, warmly ed our leaders and delegates to the city.

The Citadel was packed for the welcome meeting, and the inauguration of the Winter Rolliness Campaign was a magnificant success. Twenty-five hearts and lives were laid at the Muster's feet for cleaning and service.

In the Opera House three very powerful meetings were held on Sunday. At night hundreds were turned away, being unable to obtain admission. The great building was garged simust an hour before the advertised time and forty-four souls sought salvation, numbers rushing to the mercy seat

from the top galleries and forcing their way through the surging crowds.

The Citadel was also packed and an overflow meeting conducted by
Brigadier Turner, assisted by the Glace Bay Brass Band.

The councils were times of rich Pessing, the addresses of our leader being o'll of light, wisdom and power. The Two Hours at the Cross on Monday night was a spleadid finish to a magnificent campaign.

The meeting was a rearing fite of divine love, the building was jammed and numbers turned away. There were ninety-four seekers all told.

The campaign arrangements made by Brigadier Turner and Major Phillips were excellent.

Licut.-Colonel Pugmire.

The Commissioner's party to the East traveled in three sections—the Commissioner going to Ottawa with Brigadier Howell on immigration and business; Mrs. Coombs

Adjt. Morris proceeding direct to Bt. John, while Lieut. - Colonei Pugmire, who nots as our represent-ative, traveling to St. John and Dorchester.

The local papers have devoicd very considerable space to the campaign, hav ing extensive write-up before the arrival and very lengthy reports of the meetings themselves. From the reports of the Telegraph we excript the following:-

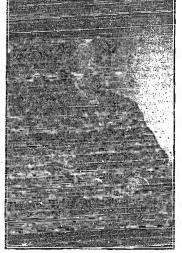

"There was a most en-thusiastic meeting last night in Charlotte St. barracks to welcome Commis-sioner Coombs and the visiting officers of the Sal vation Army to the city on the eccasion of the opening of the 20th anniversary revices. Mayor Sears. Ald. Bullock and Aid. Lewis, on behalf of the city, gace cordial walcome, while the replies by the Commissioner himself, Adjt. Carter, re-presenting the male officers

of the field staff, Ensign '\*\*
Prince for the female efficers, and
Major Phillips for the saidiery, were couched in equally warm terms.

St. John's First Visit.

"Every possible seat in the barracks was occupied. Many chairs were called into requisition, and a large number of men and women were stanting at the back when Brigadler. Turner, in a few well-chosen words introduced Commissioner Coombs, who said he was delighted at the presence on the platform of the Mayor and Mrs. Sears and Alderman Bullock. and arts, sears and Alderman Buildes, whom he described as a worthy son of a worthy father. He thanked Brig-adier Turner, for his kind words of welcome and for the warm manner in which the audience had received him.

"The Commissioner recalled the time, twenty-two years ago, when he hed first tried to visit St. John, but had been prevented by a blockade of snow. 'Mr. Mayor,' he continued.

Mayor Sears, of St. John, N.S.

you are henored in being the first citizen of no mean city. St. John has slways stood for what was good and noble.' He believed that there was great prosperity ahead for this city.

The Mayor Replies.

"Mayor Scars, who received a hearty ovation, said that in greet measure the earlier history of the city of St. John may be compared to the carlier his tory of the Balvation Army. What-ever of growth and prosperity either had attained to had been through storm and tempests. It was rather a dangerous thing at one time, and that not so long ago, to belong to the Salvation Army. His Worship observed

Lieut.-Colonel Kitching writes from New York of the enjoyment his recent visit to Toronto afforded him. He was also gratified to feet that he had been and grathed to foot that he had been made a blessing to the people. He will always have a welcome awaiting him if he should return again. . . .

The Commissioner writes of his souncits in St. John, N.B. They have been exceptionally blessed and beneficial. The Sunday meetings were exceptional of Commissioners and the Commissioners of the Comm centional. Crowds were turned away on Sunday night.

Licut.-Colonel Gaskin has gone to St. John's, Nfld., to assist the Commissioner at the councils in the Island Province. The Newfoundlanders have made great preparations and will probably be able to beat the record. The installation of Lieut.-Colonel Rees, the new P. C., will naturally be of groat interest.

Staff-Capt. Aller is one of the busiest of men; what with Hendquarters alterations and installation of the alterations and instattation of the elevator, the erection of buildings at Brandon 84 Cohn, Vancouver, and Toronta which he is the architect, he bas are little spare time. He has very faithful aids in Ensigns Locke and Freeman-very old members of the Property Department.

Brigadier Bond is also a very busy and active member of T. H. Q. Staff. The Christmas War Cry is in progress of production. The Editor presented to the C. S. this week a rough draft which promises great things. The Art Section, the supplement, and the covers will be striking features. It may go just a little beyond anything yet seen—anyhow, we will just wait and see. If anyone wants a beautiful souvenir of Canada and Christmas for their distant friends, they cannot do better then mail a copy at the earliest possible date.

The numbers are up, the Provincial leaders are determined to make the most of this benuitied Cry, and h is certain that it will do the Army great credit. Every home in Canada would be better for the possession of the Christmas War Cry.

The Young Soldier will take on a new dress on the New Year. Its shape will be changed and the young people will be able to rejoice in a brand new paper. There is an abundance of op-opportunity for on up-te-data young people's paper in Canada.

There are evidences of progress. both material and spiritual throughout the Army in Canada. God is on our Fide. The Holiness Campaign is slive in Torouto, and some glorious meetings are being keld in the various corps. We hope for good news from the country.

The Chief Secretary and Mrs. Hyle at the Temple.

A GOOD CONGREGATION AND A BLESSED MEETING.

An excellent congregation occupied the Temple last Thursday evening when the second weekly meeting of the Holmess Campaign was held. The Child Secretary and Mrs. Kyle, assisted by the Tolking Merchant Start, conducted the proceedings, and a beautful feeling pervaded the meeting. The Chief Secretary in his libia reading, which described the return of the spices from the Promised Land gave an analysis of the words in the Bible that had reference to the sanctification of the soul and these that related to the parlon of sin. This is the analysis: "Holmess," relating to present conduct, in meanuned 10th times; "Perfection," in the same scarse, 160 times, and "Holy," in the light of a command to be nely, 123 times; while "Justified," as being questified by faith, occurs 75 times, and "Pardon" but 17 times.

It will thus be seen that in the Bible considerably more stress is laid upon holy living than forgiveness of sins. "Be we hely, for I am holy," is a commandment quite as binding as any in the Decalogue.

Mrs. Staff-Capt. Fraser gave a clear, personal testimony as to the jossession of a clean heart, as did also Ensign Gillam, who, while with a threshing gang and in the lumber camps, far away from Army meetings or religious influences, had found it possible to live a life of holiness unto the Lord. After the Termile service was over a procession was formed, and to the strains of "Lead, Kindly Light," and "Abide with Me," the cortege slowly wended its way up Yonge Street to Mount Pleasant Cemetery.

Large numbers of people through its sadewalks, and out of respect for the dead uncovered their heads as the hearse passed them.

Brigadier Taylor officiated at the graveside, and a solemn and impressive service was held, leading to a re-consecration of all Salvationists

In his old age he had nothing not by that he could fall back upon and was dependent a great deal upon the generosity of friends. The Temple soldlers regularly clubbed together to-pay his board bill, and would look after him in many ways.

On one occasion someone gave Dadten cents to get something to eat with. He was proceeding to a restaurant when he met a poor follow whom he thought worse off than himself, so he gave him the ten cents and went without the food he stood so much in need of himself. This is just a side-light on his kindly disposition, and shows how even amongst the poorest Army soldiers the spirit of self-denial is thoroughly merained.

The peor old fellow is now beyond the eares and ills of this life, and free for ever from the grinding pinch of poverty in that better land he so loved to sing about.

#### PERSONALITIES.

We congratulate Capt. Mabel Stroud, of the London Rescue Home. She has graduated as a nurse and received a gold medal and a certificate for proficency.

At Dorchester Penitentiary Warden-Kirk arranged for Lieut.-Colone Pug-mire to interview over thirty convicts who will soon be discharged. The Warden was very kindly and warm-heartedly expressed his appreciation of our work amongst the prisoners.

Licut. Colonel Pugmire informs as timit he had the pleasure of journeying with Newfoundland's new commander, Lieut. Colonel Rees, who was traveling with his family to his new command. Lieut. Colonel Rees was in excellent spirits, and is delighted with the opportunities that Newfoundland presents and of again serving under Commissioner Coombs.

Brigadier Neisennah Glover, the former P. O. of Newfoundland, will shortly sail with his wife and family for the West Indies, where he will take up a Provincial appointment. The throadler's health use been somewhat indifferent of late. When the writer saw him and Mrs. Glover at the International Headquarters, they both had very nice things to say about Canada, and deeply regretted that their state of health necessitated a departure from the Dominion.

The health of Commander Eva Booth continues to improve. A welcome meeting was arranged for her recently when the Memori. It ill was packed. Everybody was delighted to see the Commander in a gain. According to latest these she has an interesting solds: meeting planned for New York it, connection with the Italians Campaign, and also the opening of the Boston Freeincial Headmanage staring the present month. The Captain's testimony to the Commissioner was: "I am fully resigned to the will of God. I have no regrets. If He wants me for heaven I am ready. I have loved the fight, and now have joy in locking back over ten yaars spent in God's service." His message to commude-officers gathered in council was: "Go on! Fight harder than ever; fight to a finish; go through to the end!" The Commissioner then prayed with our commade and kissed him affectionately. In a short report of the matter, which appeared in the Toronto World, the following facts were given:

"Dad' Worktins was 22 years of age, and had been connected with the Army for twenty-four years. He will be Tournipered by all who have seen the Temple corps on parade, as a slight figure, rather bent; a kindly face, with grizzly white-beard, swing-ang along with an earnest perticipation in the services. He was one of the first converts the Army had in Toronto, and when converted was under the influence of liquer. He joined the Arnay at that time, and has played in the band, led mestings, and bein minor offices. As a ragman about town he was well known, but on account of ill-health he cold out his business some years ago."

Trior to his conversion, Dad had lived a very drunken life, and when he eame to the penitent form a bottle of whiskey wes seen protruing from his pocket.

He was a ragman by trade, but never prespered much at the business.

From anserit legends we may learn how deep-noted are the religious convictions on which the sacredness of the row is based, the innote regard in which she is hold; the affectionine companionship accorded her; also the horrer with which our eating the flesh of "our mother" is regarded. Everything about the cow has been observed and noted. Every smanation from before it is a made and used in war ship. "As much water as will lie it a hole made in the mud by a cow's hold." In every palace contrard stands this king-beast-of-the-stables; as in the centre of every noyal cow-shed one finds a tiper in a cage; for singularly enough, this animal is said to bring good luck to cows, probably by increasing their milk through four. The great beast "Hathr" often roams unattended through the bazars and seems to know everybody, quite with the air of the "oldest inhabitant" of a New England village.

But no head may lift higher than that of the "rajah's" personal friend, the moukey. Well may this be, for is he not of both sacred and royal origin? All over India monkeys run in and out the pattern of life. You will see them locking in through your window as you take your "chotd-hord," or "little breakfast"; they scanper over the roofs holding their young in distressingly human fashion, sit down on their blue or orange pelvic-cushions, and perhaps held up in derision some object they have just stolen from the table.

In polaces they assume the gravity of princes, in temples, the holiness of priests. The first section will contain a most varied collection of stories and topical uticides, allegories, and poems. The Land of the Magile Levi Sunny South Airica, Klondyke, Germany, and other places are represented by special Christmas stories, each profusely illustrated. . . .

The Art Section will contain a fine representation of Bougereau's Nativity; a large two-page ploture, "The Flight into Egypt, by Vedder, and other fine pictures of local and seasonable interpictures of local and seasonable interest; in fact, the whole issue will be decidedly strong in pictoral matter. Lieut.-Colonel Kitching, of London, Eng., recently delicated a thrilling lecture in the Temple, Toronto. #### FOREWORD.

MOST dangerous man . . . and I feel it my duty to order you to he kept in penal servinule for the remainder of your natural life.

Mr. Justice Hawkins to Charles Overton, who stood in the dock at the Centrel Criminal Gourt. London, Eng., on March 31st, 1891, convicted of burglary and the attempted murder of four persus. on Marchard and burglary and four persons.

Twenty years later. One day Charles Overton, now known as Convict 72, as he sat in his cell, heard the hoarse grating of the key in the lock. The door swong open, and the turnkey's gruff voice summoned bim to the governor's office.

The Spirit of God, and the Christike conduct of a Christian prison official had done a great work for the one-time fierce and desperate convict, No. 72. Its had been led to give his heart to God, and his conduct since had been so axemplery that his case had been so axemplery that his case had been brought before the King, and on the occasion of His Majesty's necession to the throne he was informed that His Majesty had ordered his release, on the condition thot he did not leave the country—so by the King's grace, he was free.

Free! Free to well the streets rifer twenty years' confumement in a prison-oell; free to wear the gerb of an honest man, effor having borne the foliar's hrand for a score of years, lies to mingle and speak with his fellows, after all those weary years of chiraced silence. Free! Free! Free!

We first sew Charles Overton at the works of one of our Prison Gate Homes, and were struck with his appearance. It is was a tall, well-proportioned min, about fifty years of age, and of a very intelligent and prepassessing countenonce. A type of man singular y unlike the recognized brand of Bill Sikes. A man evidently not criminal by instituct, but the victim of evil circumstances. We listened to his story, which certainly possessed all we dements of trilling interest, and, as a psychological study, is highly instructive.

It showed I we a high-spirited, but kindly dispositioned country youth, was bruth led by the harsh confact of a drunken grandfather—how he was led into crime through the instigations of a Delinian—how he emerged from the prison at the age of twanty-five, after being slute away from his follows for seven years, a veritable Islamedite, "his hand against every man, and every man's hand against his"—how by lumnase conduct and the grace of God, he became a new creature, and ultimately a self-respecting and respected member of society. The circumstances which led to his being brought into control with the Editation Army are painful, but in teresting; and throw a flood of light upon the difficulties as the open of society. The story also shows how great in the need for work sumorest disolongest prisonors.

When Charles was disadenged from prison he was placed with a society which was thought by the prison rundomities to be well suited to his case. Weeke pessed by, and his little store of monny that his had began to relit away, and as the society dill not suc-We first saw Charles Overton at the

He saw in the pages of a labor journal an advertisement stating that stone-cutters were required in a certain district in Cyrr wall. Fie had tearned stone-cutting at Dagtmoor, so he applied for and obtained work at the said quarry.

Being on license he informed the authorities at Sectland Yard of his circumstances, and was ordered to report himself to the Superintendent of Police at the town nearest the quarry at which he had obtained comployment, which town we will call A. Now, although A was only situate about three miles from the village and quarry, which we will call B, the two places were in different counties. So when Charles presented himself and papers to the superintendent at A, he was informed that B was out of his the superintendent's jurisdiction, and that he (Charles) must report himself to the constable of that place.

Charles duly reported himself to the concatable, who composed the police force of R; but only to be informed that his papers were made out to the superintendent of A, and that he (the constable at B) could have nothing to do with him A game of battledore and shuttlecook then commenced between A and B. Charles being the shuttlecook then commenced between A and B. Charles being the shuttlecook at last the police superintendent at A told Charles to get lodgings, and go on with his work, and he would stand by him if canquiries were made.

The Commanding Officer, who tells your brether to be a Recruit for one month, and a sodder for three or four mouths longer before being admitted into the band, has decided very wisely. Your brother must learn to be a Salvationist before he becomes a bandsmission.

Balvationist before he becomes a bandsman.

He should throw himself heartily into the open-air work, and nover lose a chance of praying or testifying. His leisure may well be used in teaching himself to read music; but to learn how to win soule is more important than all.

No Artay Bandmaster would want us a member of his band a man who had not first learned to be a good, obedient, godly, and useful soldier.

Enquirer has been a soldier several menths, and feels the ought to become a Candidate, but her mother objects.

You are old enough to decide this important matter for yourself. Let no one steal your change of living to win souls. Yield yourself to the guidance of the Rolf Spirit. He will not leave you me doubt about Ris will.

I cannot get anywhere private for prayer, so had I not better just live on end trust God?

on and trust God?

You must pray, or your salvation will die. If you cannot get alone with-God in your own house, try the railway carriage, the street, the fields. Your soul can be alone with God anywhere, and you can pour your long ont to Him as you go about; but don't forget to pray on your knees at

-----home, even if it is in the midst of noise and trouble.

What does the Scripture mean when says about taking away the heart stone and giving a heart of ficely?

of stone and giving a heart of fischir Most likely the writer was illustrating the message God had given him by referring to what the readers of his day would understand, vin, the writing of sared names and sentences on a stone, heart-shaped, which the ancient Egyptians used to put in the embalmed body of a dead person in place of the heart of fieth. There is a beautiful truth in the fact that God will in onever to prove take away. a beautiful trush in the fact that too will, in answer to prayer, take away the unfeeling, hard heart of the sinner "dead in trespasses and sins," and replace it by a living, heating, warm heart in the "new creature in Christ Jesus." PLEASE NOTE

Setteral things have been crowded out of this issue, including "Notes for Benesment"; Our Weekly Interview; Scene to Glory; and the War-Cry. Boomers Honor Roll. Will will observe the set of the latter understand that we leave out their names with great rejuctance, as we apropedigts their devetion so much.

#### SONGS. & SALVATION

#### SALVATION.

Tunes. - Evan (N.B.B. 31); Manchester (N.B.B. 47).

1 Come every soul by sin oppressed, There's mercy with the Lord, And He will surely give you rest, By trusting in His word.

#### Chorus.

Oh, Jesus, my Saviour, will welcome sinners home, Sinner, don't deley.

For Jeaus shed His precious blood Rich blessings to bestow; Plungs now into the crimson flood That washes white as enew.

Yes, Jesus is the Truth, the Way, That leads you into rest; Believe on Him without delay, And you are fully blest.

Come, then, and join the happy band, And on to Glery go. To dwell in that celestial land Where joys immortal flow.

Tune,-Jesus is Strong to Deliver. (N.B.B. 245).

2 Why are you doubting and fearing?
Why are you still under sin?
Have you not found that His grace doth abound?
He's mighty to save, let Him in.

Jesus is strong to deliver,
Mighty to save! Mighty to save!
Jesus is strong to deliver,
Jesus is mighty to save.

You say, "I am weak, I am helpless, I've tried again and again." Well, this may be true, but it's not what you do, "Tis He who's the Mighty to Save!

When in the tempest, He hides me; When in the storm, He is near; All the way 'long He carries me on, And now I have nothing to fear.

#### HOLINESS.

Tune.—For Ever with the Lord (N.B.B. 69).

And pressing through the past
Of failure, fault, and lear,
Before Thy cross my soul I cast.
And dare to leave it there.

From Thee I would not hide
My sin, because of feer
What men may think; I hate or pride;
And as I am appear—
Just as I am, O Lord,
Not what I'm thought to be;
Just as I am, a struggling soul
For lite and liberty.

Tunes. Tucker (N.B.B. 125); Christ for Me (N.B.B. 124);

Thou Christ of burning cicumsing flame,
Send the fire!
Thy blood-boughi gift to-day we claim,
Send the fire!
Look down and acc this waiting host,
Give us the promised Holy Ghost,
We want another Pentecost,
Send the fire!

God of Elijah, hear our cry,
Send the fire!
He'll make us fit to live or die,
Send the fire! To burn up every trace of sin,
To bring the light and glory in,
The revolution now begin,
Send the fire!

#### WAR.

Tune.-With the Conquering Son (N.B.B. 109).

5 We are sweeping through the land, with the sweet of God in hand; we are watching, and we're braying while we fight.
On the wings of love we'll fly To the souls about to die.
And we'll force them to beheld the precious light.

#### Choras.

With the conquering Son of God.

Oh, the blessed Lord of light,
We will serve Him with our might,
And His arm shall bring salvation to
the poorThey shall lean upon His breast,
Know the sweetness of His rest,
Of His parton He the vilest will assure.
